

FULTON COUNTY, GA

(2009-2010)

Suspension Rate K-12 for All Students: 15%

Suspension Rate for All Secondary School Students: 23.5%

Number of Students Suspended One or More Times: 13,540

Number of Secondary School Students Suspended One or More Times: 10,995

Disaggregation by school level, race, and disability status reveals profound disparities in the risk for out of school suspensions. The graph below and detailed tables that follow describe deep disparities along the lines of race, gender, disability status, and English learner status that are much greater at the secondary school level than at the elementary school level.

Figure 1. Risk for Suspension at the Elementary and Secondary Levels By Selected Subgroups

In Fulton County, the risk for suspension grew from elementary to secondary school as follows: 5 points for Whites; 21 points for Latinos; and 31 points for Black students. However, for each racial group it was males with disabilities enrolled at the secondary level that were most at risk for suspension.

Table 1. Students with Disabilities Compared to Students Without Disabilities by Race and School Level

| Fulton County | Elementary School Students Without Disabilities | Elementary School Students With Disabilities | Secondary School Students Without Disabilities | Secondary School Students With Disabilities |
|---------------|---|--|--|---|
| White | 1% | 2% | 5% | 14% |
| Latino | 2% | 3% | 22% | 31% |
| Black | 10% | 16% | 41% | 50% |
| Asian/PI | 0% | 0% | 2% | 0% |

Note: All numbers rounded to the nearest whole number; only included if 100 students enrolled in subgroup were enrolled.

In Fulton County, the gap between Black and White students ranged between 9 points for elementary students without disabilities to 36 points for students with disabilities at the secondary level. The Latino/White gap also increased at the secondary school level.

Figure 2. Percentage of Enrolled Subgroup Suspended at Least Once by Race and English Learner Status (ELS) with Gender by School Level

Note: All numbers rounded to the nearest whole number.

The graph shows a steep rise in the risk for suspension at the secondary level in Fulton County that is especially large for Black male students, Latino male students and male English Learners. Most notable is that more than half of Black male secondary students were suspended at least once. Second, for English learners, especially for males who were suspended at relatively low rates in elementary school, they became the third most frequently suspended male group at the secondary school level. Finally, Black females at the secondary level were suspended at a higher rate than any subgroup of secondary male students except Blacks.

Hot Spot and Lower-Suspending Secondary Schools in Fulton County:

Research has indicated that profound differences in the rates of suspension can be found at the school level within the same district. The second and third columns in the chart below show the number of secondary schools in Fulton County that suspended 25% or more and 50% or more of any subgroup by race/ethnicity, gender, disability status, or English learner status. The fourth column shows the number of schools that suspended 25% of their total enrollment without disaggregation and the last column shows the number of schools that did not suspend more than 10% of any subgroup.

Table 2. Number of Hot Spots and Lower-Suspending Secondary Schools for All Groups in Fulton County

| Number of Secondary Schools | Suspended Any Group Over 25% | Suspended Any Group Over 50% | All Student Rate Over 25% | Suspended No Group Over 10% |
|-----------------------------|------------------------------|------------------------------|---------------------------|-----------------------------|
| 42 | 27 | 17 | 18 | 4 |

- 18 secondary schools in Fulton County suspended over 25% of their student body in the aggregate.
- Many of Fulton County's secondary schools (27) suspended at least one subgroup at that high rate.
- Of these, 17 secondary schools suspended at least one subgroup at a rate of 50% of their total enrollment.
- There were four lower-suspending schools where not one subgroup experienced a suspension rate above 10%.
- This analysis did not look at race with disability with gender at the secondary school level.

Where to find out more about Fulton County or other school districts: The information in these charts are available for every school district that reported its data to OCR in 2009-10. For your convenience we have provided a two-page analysis like that of Fulton County above for 20 large districts representing every region of the United States.

The full set of analyzed data on every district OCR collected data from in 2009-10 are available via the spreadsheets posted (along with instructions) on our website. The excel sheet allows users to sort and filter by all the indicators represented in these graphs and tables, and also to compare district data to districts within each state or across the nation. Much of this information will soon be available by using a web tool on our website that will allow for some degree of comparison. Additional data on school discipline, for 2011-12, that is otherwise identical to the raw data analyzed for this report can be obtained by filing a Freedom of Information Act request with your school district.
